Revision Notes

Notes and MRL values shown are those applicable when the PPPL was created. Actual values could be different.

Note 1 Low GB MRL. High risk due to low MRL set in GB. It is critical to observe PHI and avoid repetition of applications. Whenever possible extend PHI and do not use near harvest. If possible consider alternative chemical or non-chemical control measures.

Note 2 Expiry date near. Product will expire within 12 months from PPPL submission.
